Objective

- Develop new interesting products or tools, refine existing ones, find creative solutions for problems.

Education

- **UFRJ**—Rio de Janeiro, Brazil
Bachelor's degree in Computer Science (2003 - 2011)
- **CEFET/RJ**—Rio de Janeiro, Brazil
Technical education in Informatics (2001 - 2002)

Skills

- **Spoken Languages:**
 - Portuguese: native language.
 - English: almost fluent.
- **Computer Languages:**
 - Proficient in C, JavaScript, Python, Shell Script.
 - Proficient in HTML and CSS following W3C/WHATWG standards.
 - Familiar with Assembly, C++, PHP, SQL, SVG.
- **Operating Systems and Network:**
 - Advanced Linux user, proficient in Gentoo distribution, familiar with Ubuntu.
 - Familiar with standard Unix/Linux tools and common Linux services.
 - Familiar with TCP/IP, routing, NAT, common network services and protocols.

Experience

- **Software developer at aceitaFacil, Belo Horizonte (2014 - now)**
 - Mostly writing backend PHP tests.
 - Also writing code in JavaScript, Python and SQL.
- **Software engineer at Google Brazil, Belo Horizonte (2011 - 2013)**
 - Worked in the Ads team and in the Search Quality team.
 - Wrote code in many languages: C++, Java, Go, Python, JavaScript, bash.
 - Wrote Chrome extensions as tools for internal development.
 - Worked with Map-Reduce and Protocol Buffers.
- **Software developer at Vialink, Rio de Janeiro (2007 - 2011)**
 - Worked on web applications using Python, Django, MySQL, JavaScript.
 - Wrote a module for generating PDF from a Django template using \LaTeX .

- Wrote a Python module for creating/previewing labels in EPL2 language.
- Worked with a designer to develop a few websites (HTML, CSS, JavaScript, PHP and Wordpress).
- Helped with Linux server maintenance and network troubleshooting.
- **Scholarship at UFRJ (2004)**
 - Modified OpenSSH to support to single-use passwords, similar to what some banks use nowadays.
- **Sysadmin of a computer lab at UFRJ (2003 - 2007)**
 - Managed a dozen Linux/Windows machines and a couple of Linux servers.
 - Network configuration and troubleshooting, including DNS, firewall, NFS, Samba, SSH and other common Linux services.

Competitions

- **OBI (Brazilian Olympiad in Informatics)** contestant in years 2002 and 2003. Fifth place in 2003 (gold medal), and third place in IOI-2003 selection.
- **IOI (International Olympiad in Informatics)** contestant in 2003.
- **ACM ICPC (International Collegiate Programming Contest)** contestant in years 2004, 2005, 2006 and 2007. Bronze medal in 2006 Brazilian Finals.
- **Google Code Jam Latin America** contestant in 2007, 22nd place at on-site finals.

Open Source Projects and Contributions

- USB HID absolute pointing device using an ATmega8 AVR 8-bit microcontroller and a magnetometer. Firmware under 8KB written in C, as well as some auxiliary tools written in Python. The device works out-of-the-box on any system, no extra software required.
<http://bitbucket.org/denilsonsa/atmega8-magnetometer-usb-mouse>
<http://github.com/denilsonsa/atmega8-magnetometer-usb-mouse>
- prettytyping, a wrapper for ping providing a better UI.
<http://www.reddit.com/r/linux/comments/1op98a/>
- Simple server monitoring tool. The back-end was written in bash, the front-end in PHP.
<http://bitbucket.org/denilsonsa/servermon>
<http://github.com/denilsonsa/servermon>
- Many small personal projects at <http://bitbucket.org/denilsonsa> and <http://github.com/denilsonsa>
- Some user-scripts (for Chrome, Firefox with Greasemonkey, or Opera browser) at <http://userscripts.org/users/120597/scripts>
- Some user-styles at <http://userstyles.org/users/194017>
- Contributed some ebuilds to both Gentoo Linux and Gentoo Sunrise.
